PROUGI

Thank you for selecting the Nintendo® Entertainment System Mach RiderTM Pak.

OBJECT OF THE GAME/GAME DESCRIPTION

It's the year 2112. The earth has been invaded by the forces of evil. Battle with the invading forces as you race from sector to sector searching for survivors. You are the earth's only hope. You are Mach Rider!

Please read this instruction booklet to ensure proper handling of your new game, and then save the booklet for future reference.

1. PRECAUTIONS

- 1) This is a high precision game. It should not be stored in places that are very hot or cold. Never hit or drop it. Do not take it apart.
- 2) Avoid touching the connectors, do not get them wet or dirty. Doing so may damage the game.
- 3) Do not clean with benzene, paint thinner, alcohol or other such solvents.
- Note: In the interest of product improvement, the Nintendo Entertainment System design and specifications are subject to change without prior notice.

BANAT ON DREESING Restrict T

1. Press the reset switch to recall the game menu. 2. Using the SELECT button or the ch Control Pad, move the D mark to DESIGN and press the START button.

MACH RIDER DESIGN MODE SCREEN

HOW TO DESIGN AND PLAY YOUR OWN ORIGINAL COURSE

- 1. There are 37 different course parts you can select from. 2. By manipulating the course cursor \Box with the 42 Control Pad within the design area, you can move the parts to the desired position. 3. By pressing the B button and manipulating the 42 Control Pad, the parts
 - parts you would like to use.

3. The DESIGN mode menu will appear. Move the (c) mark to DESIGN again and press the START button. A screen to design the course will appear.

Note: Save and load menu selections are not operable in this game; they have been programmed in for potential product developments.

cursor I in the character palette will move, enabling you to pick the course

- 4. When the A button is pressed, the course parts picked in (3) will be set into place in the desired position you have chosen in paragraph (2).
- 5. If you wish to remove a part that was placed in a position you do not like, appear.
- 6. Once the screen has been completed, return to the DESIGN mode screen by button to start the game.
- 7. If you wish to clear (erase) the entire course design, press the A, B, and START buttons all at the same time.
- 8. When you have finished designing your own course, press the reset button.
- button.

NOTE

1. The course should always start from the left side frame of the design area and course at the top or bottom of the frame would be an incomplete course. 2. Even if the course may seem to have been completed on the design area, there that needs correction. Change or modify this portion. Course parts that cannot be set are blanked out with mark.

move the cursor blank mark and push button A and the former part will dis-

pressing the SELECT button. Select the desired course and press the START

9. To return to the game menu screen while in the design mode menu screen, do so by lining up the) mark with the RESET and pressing the START

end at the right side frame. Otherwise, the game cannot be started. Ending the

may be times it will not transfer to the DESIGN mode menu with the SELECT button. In this case, the cursor \Box in the design area will move to the part

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antennal
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver
- - on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful:

How to Identify and Resolve Radio-TV Interference Problems This booklet is available from the U.S. Government Printing Office, Washington, D.C. 20402, Stock No. 004-000-00345-4.

- Plug the NES into a different outlet so that Control Deck and receiver are
